# Global Debt/Loan - A Curse on Humanity

By Irshad Mahmood – Director, Global Right Path

Day by day More & More People are getting into **Debt/Loan**, which is a **Curse on Humanity** and there is no cure other than take lessons from the Quraan and make Global People Debt FREE. It is time now to ponder on the Quraan and help the Dying Humanity. Students are suffering very badly from the Worst Global Economic Disasters around the Globe.

At present time many of Global Students are on huge debts, instead of Debt Free like a new born baby, at the beginning of their practical life after completing their education. All governments need to re-analyze their system to make their students Debt Free as much as possible. All Professional Institutions (Schools, Colleges and Universities) must have one Global Standards without any discrimination so that people will be worry free about their kids from getting a low standard education and will not plan to move to new locations which will sure help save their big huge burden otherwise it will be clear discrimination against students of different regions. All Seats must be balanced (10% International, 10% National, 10% Provincial and rest 70% for local/regional students). In case of less applications from International, National or Provincial all available seats must be assigned to Local Students.

To take Global World in a right direction to help humanity, we need to be well organized, dedicated and must have clear direction in a **Balanced Way** and **Debt FREE** (Ref: AI\_Quraan\_009.060, 025.063-067), which may not be achieved without taking guidance from the Quraan (the Book of Guidance for the mankind).

**Global System must be fixed in a balanced way to overcome Global Instability in the light of the Quraan.** It must follow the basic rule to **TAX the GREEDY not the NEEDY and TAX on SAVING NOT SPENDING** without wasting or over spending. **It must ensure that people are not thrown out from their home. Education must be provided to all with internationally recognized high standards for free, which must have good parent-teacher relation.** Burdon of debt should not be put on students for their studies including professional studies, so that they can concentrate more on study to acquire more knowledge to help the humanity than worrying on how to pay debt. Earnings must be balanced for each skillsets people may have, so that they don't rush to only few skillsets. Special encouragements must be given to those who sincerely and devotedly work hard to help the Global System in a balanced way. Many times top management neglect those who are the foundations of their team and who are working at lower ranks and due to ignorance their morals are down, which might affect productivity. A few from each group must learn Deen to teach others in their society, (Ref: AI\_Quraan\_009:122).

## Global Anthem - Change Our World

Toronto, Canada
