Global Education

By Irshad Mahmood – Director, Global Right Path

World is changed and now even folk lifting or auto technicians are professionals and students need Professional Education for all disciplines to be successful in their lives around the globe.

To stabilize the Global World, it urgently needs right **Education**, which may not be without proper Organizing Skills. Presently cost of education is getting higher and higher and is going beyond the reach of students. Global Government needs to take lessons from the Quraan, the Book of Guidance to take out burden from the shoulder of students so that they can concentrate more on education. Only waiving off tuition fee may not help completely but living expenses must be available to the needy as well. **Sweden** still in 2010 has totally **FREE** Educations for their citizens and also has scholarships for those students who are regularly passing their exams on time to cover their living expenses. So Swedish are more dedicated to their education and they have many good inventions/contributions to the Global World as well, e.g. Ericson (Mobile), Saab (Vehicle), Volvo (Vehicle), Celsius 100-point thermometer, First Mechanical Calculator, Bicycle with brakes, Tetra Pack, Battery Powered Pace Maker, Artificial Intelligence, Robotics, Mecanum wheel capable to move in any direction and many more.

One of the Peak of Technology can be understand from the story of Prophet Sulayman/Solomon (Peace-Be-Upon-Him) in the Quraan, where a person was capable to bring a throne before the twinkling of an eye, (Ref: AI_Quraan_027.040).

To take the Global World in a right direction to help the humanity, we need to be well organized, dedicated and must have clear direction in a **Balanced Way** and **Debt FREE**, (Ref: AI_Quraan_009.060, 025.063-067), which may not be achieved without taking guidance from the Quraan (the Book of Guidance for the mankind).

Difference in **Income** of **Lawyers, Doctors** and **Other Professionals** must be balanced, so that student can choose any discipline of their own choice if available. **Deep study is needed** for the Global Government to have clear direction to let the students know where there are more requirements. All profession disciplines must have modern Hands-on-Training in addition to regular courses, to train all students to enter the workforce on time.

Global Government must have clear direction to help students to enter the workforce. No high professional student should be leftover at age 25 without any job, other low tech students should be able to enter the workforce at much earlier age. It must establish a system where seniors must be able to train new students.

Remember: It is not the Wealth (Gold or Silver) or Power which could save the people from Global Instability. Allah seized Qaroon, Pharaoh, and Hamaan and many others, for their crime against humanity and nothing could save them including their wealth, power or people etc., (Ref: AI_Quraan_029:039). However world didn't end there, but even without their wealth and power, it had re-developed. Those who never faced real poverty for years may never understand its solution, unless they have really took the Guidance from the Quraan. **It is 100% guaranteed to save the world globally, if we truly apply the guidance from the Quraan.**

Global System must be fixed in a balanced way to overcome the Global Instability in the light of the Quraan. It must follow the basic rule to TAX the GREEDY not the NEEDY and TAX on SAVING NOT SPENDING without wasting or over spending. It must ensure that people are not thrown out from their home. Education must be provided to all with internationally recognized high standards for free, which must have good parent-teacher relation. Burdon of debt should not be put on students for their studies including professional studies, so that they can concentrate more on study to acquire more knowledge to help the humanity than worrying on how to pay debt. Earnings must be balanced for each skillsets people may have, so that they don't rush to only few skillsets. Special encouragements must be given to those who sincerely and devotedly work hard to help the Global System in a balanced way. Many times top management neglect those who are the foundations of their team and who are working at lower ranks and due to ignorance their morals are down, which might affect productivity. A few from each group must learn Deen to teach others in their society, (Ref: AI_Quraan_009:122).

Note: All Professional Institutions (Colleges and Universities) must have one Global Standards without any discrimination. All Seats must be balanced (e.g. 10% International, 10% National, 10% Provincial and rest 70% for local/regional students from each council/electoral region). In case of fewer applicants from International, National or Provincial all available seats must be assigned to Local Students.

Repeatedly Relying on the Same Corrupt or Incompetent Person will NOT Change the Fortune of a Nation. Do not think to try to re-appoint those who were failed to protect the corruptions in the land.
