Global Institutions

By Irshad Mahmood – Director, Global Right Path

To build Whole New World of Heavenly Earth, **Institutions** must play exceptionally important key role. All Governments must help all Institutions to be transformed into Global Institutions of International Standard.

Presently due to Global Economic downturn which is effecting many of us. All students need special help. To ease their burden, local students need to be given first preferences to get admissions in professional institutions and universities in a balanced way. **All Professional Institutions (Colleges and Universities) must have one Global Standard without any discrimination. All Seats must be balanced (e.g. 10% International, 10% National, 10% Provincial and 70% for local/regional students from each council/electoral region). In case of fewer applicants from International, National or Provincial sectors, all available seats must be assigned to Local Students. This will help students to ease their expenses by living with their parents and hence save some their time and money to concentrate more on their education.**

Backbone of all Nations:

Backbone of all Nations is **Good Mothers**. The world is advancing very fast and in this crucial situation, present and future Biological Mothers need to be trained enough to support their own kids, since who can be better than the mothers who help their kids, from their wombs until they grow enough and are trained enough to support themselves and their future families. Future need is always changing and at the present time it is necessary for a mother to be trained in not only feeding babies and changing their diapers but also driving, computers, medicines, and other herbal and home remedies etc. A special Ph.D. degree needs to be developed in all universities to train present and future Biological Mothers, since **Good Mothers are Backbone of all Nations**. Also after completing this degree, all those mothers who hold this degree need to be given title as **Doctor Mother** and not just mother.

To take the Global World in a right direction to help humanity, we need to be well organized, dedicated and must have clear direction in a **Balanced Way** and **Debt FREE** (Ref: Al_Quraan_009.060, 025.063-067), which may not be achieved without taking guidance from the Quraan (the Book of Guidance for the mankind).

Global Government must have clear direction to help students to enter the workforce. No high professional students should be leftover at age 25 without any job, other low tech students should be able to enter the workforce at much earlier age. It must establish a system where seniors must be able to train new students.

Remember: It is not the Wealth (Gold or Silver) or Power which could save the people from Global Instability. Allah seized Qaroon, Pharaoh, and Hamaan and many others, for their crime against humanity and nothing could save them including their wealth, power or people etc. (Ref: Al_Quraan_029:039). However world didn't end there, but even without their wealth and power, it had re-developed. Those who never faced real poverty for years may never understand its solution, unless they have really took the Guidance from the Quraan. **It is 100% guaranteed to save the world globally, if we truly apply the guidance from the Quraan.**

Any nation who don't provide their women right education under the boundary limit of the Quraan, true book of guidance may be left far behind in this world and probably on the day of judgment as well.

Those who will support and promote educating women will Inshaa Allah get Great Reward from Allah.

Repeatedly Relying on the Same Corrupt or Incompetent Person will NOT Change the Fortune of a Nation. Do not think to try to re-appoint those who were failed to protect the corruptions in the land.

Read Al-Quraan, the Miracle of Miracles and free from contradictions and errors
