Global Labour Day (01-MAY)

By Irshad Mahmood – Director, Global Right Path

Labour Day is being observed on different days around the world. Around **90%** of people observe on **01-May** while the rest observed it on different days. In USA and Canada, it is observed on first Monday of September.

Global World is moving very fast and many things need to be organized, synchronized, reorganize, fix and also start new projects for the better future of Global World. It is time now to synchronize all to have one unified **Global Labour Day** on **01-MAY** each year.

01-May was chosen to be International Workers' Day in order to commemorate the **04-May-1886** Haymarket affair in Chicago. The police were trying to disperse a public assembly during a general strike for the eight-hour workday, when an unidentified person threw a bomb at the police. The police responded by firing on the workers, killing four demonstrators.

In **1889**, a meeting in Paris was held by the first congress of the Second International, following a proposal by Raymond Lavigne which called for international demonstrations on the **1890** anniversary of the Chicago protests. May Day was formally recognized as an annual event at the International's second congress in **1891**. [citation needed] Subsequently, the May Day Riots of **1894** occurred. The **1904** International Socialist Conference in Amsterdam called on "all Social Democratic Party organizations and trade unions of all countries to demonstrate energetically on the First of May for the legal establishment of the **8-hour** day, for the class demands of the proletariat, and for universal peace." The congress made it "mandatory upon the proletarian organizations of all countries to stop work on **1 May**, wherever it is possible without injury to the workers." **Ref:** https://en.wikipedia.org/wiki/International_Workers%27_Day

Global Economy is hitting hard on each and every person on this planet. We must joint together with True Love with Humanity to save Global World. I have not seen a single business person doing very good business without any single customer (**customers are human**). Always remember, **if there is No Customer then there is No Businesses**.

A single machine may replace thousands of humans BUT not a single human can ever replace a single machine.

We invite you all for fixing Global System to save and serve humanity. Guidelines are in the following link
