Due to Multiculturalism, Business has grown tremendously in those countries, which has promoted it in sprits. It has open new doors to grow.

With the fusion of several cultures, the citizens now have better ideas and they also benefit from them. For instance, there are several kinds of foods available due to multiculturalism like Chinese, Italian, Mediterranean and South Asian foods etc. Moreover, there are different sports that other cultures brought from their countries. Soccer originated from Europe, with Ice hockey coming from Canada etc.

Multiculturalism strengthens a country, especially if there are programs that work towards promoting cultural understanding and eliminating racism. It also encourages all people to take part in the economic, political and social life of the society. Having a diverse mixture of cultures and people inspires people to think differently and thus enhance their creativity.

## Business Development and Economic Growth:

Skilled immigrants are a key source of information for organizations in the new Global Economy. Immigrants can open doors to investment opportunities overseas and help attract foreign investments. Newcomers bring new education and work experience and an understanding of a global business context.

Businesses can be opened seven days a week, so it can grow even further, since **Muslims will take day-off on Friday, Jewish will take day-off on Saturday, Christians will take day-off on Sunday, and others will take day-off one day between Monday to Thursday. This way Businesses will be kept open seven days a week including Hospitals and specially Emergency Departments in Hospitals as well as Fire Departments.**
