Solution to Global Refugees Crisis

By Irshad Mahmood - Director, Global Right Path

Global Refugees Crisis is rising around the Globe. People are suffering badly all around the world due to Natural Disasters as well as Man Mad Disasters (Dirty Global Politics). One of main reasons for **manmade** Global Refugees Crisis is due to Total Failure of Global System. Perhaps till now it could be like **TIP OF AN ICEBERG** what we have seen yet and rest could be about to come sooner if not later, since the world didn't took true guidance from the Quraan to stabilize the Global World to save humanity, (Ref. Al_Quraan_005.032). There are two types of Refugees, one due to Extreme Global Poverty and due to unjust killing of Humanity.

Refugees due to Unjust Killing of Humanity:

War is not an option, while Love is. But when powerful nations wage **unjust WARS** against weak nations Refugees Crisis rises enormously. When world is already facing Extreme Poverty and is up to the neck, then Refugees Crisis on top of it becomes **UP TO THE NOSE**, and humanity is hardly breathing and is about to die, if not taking immediate actions to save them. They might not be able to save unless taking guidance from the Quraan, since all other systems are totally failed to save humanity except the Quraanic Way. **Let us try Quranic Way to Save Humanity with 100% Guaranteed.** Allah has given organs to all human without any discrimination. **Remember:** Refugees who are able to reach neighboring countries, could be less than **1%**, while more than **99%** might have lost all hopes and are dead or are about to die. Humanity dies because of Terrorism, and Humanity also dies because of **Total Failure of Global System**, which is much worse than Terrorism and is **Greater Crime against Humanity**. **Global Human Right Activist** must stand up and join together before it gets too late, to save humanity without any discrimination of religion, race, color, gender, language or nationality etc. **NO CHANGES WITHOUT ACTIONS.**

Refugees due to Extreme Global Poverty:

Refugees are also on the rise due to Extremes Global Poverty around the Globe. One of reason of Extreme Global Poverty is due to the differences between rich and poor are increasing enormously because of Great instability in our global system. People are suffering badly all around the world including Thailand, Greece, many of African and South Asian countries and even in the United States of America, with no exception to Muslim Countries. Perhaps till now it could be like **TIP OF AN ICEBERG** what we have seen yet and rest could be about to come sooner if not later, since the world didn't took true guidance from the Quraan to stabilize the Global World to save humanity.

Although **world has enough to feed but not greed**, but few of major issues which had increased the Global Poverty are Unbalanced Global System, Interest Based System, Alcohol, Gambling, Supply and Demand System and Raise in Salary by small percentage, on which special deep study is needed, (Ref: Al_Quraan_002.278-279, 002.219).

It is not the Wealth (Gold or Silver) or Power which could save the people from Global Poverty. Allah seized Qaroon, Pharaoh, and Hamaan and many others, for their crime against humanity and nothing could save them including their wealth, power or people etc., (Ref: Al_Quraan_029:039). However world didn't end there, but even without their wealth and power, it had re-developed. Perhaps those who never faced real poverty for years may never understand its solution, unless they have really took the Guidance from the Quraan. **It is 100% guaranteed to save the world globally, if we truly apply the guidance from the Quraan.**

Global System must be balanced to overcome the Global Poverty in the light of the Quraan. It must follow the basic rule to TAX the GREEDY not the NEEDY and TAX on SAVING NOT SPENDING without wasting or over spending. It must ensure that people are not thrown out from their homes. Education must be provided to all with internationally recognized high standards on reduced rate if not for free, which must have good parent-teacher relation. **Burden of debt should not be put on students for their studies including professional studies, so that they can concentrate more on their studies to acquire more knowledge to help the society than worrying on how to pay their debt.** Earnings must be balanced for each skillsets people may have, so that they don't rush to only few skillsets. Special encouragements must be given to those who sincerely and devotedly work hard to help the system in a balanced way. Many times top management neglects those who are the foundations of their team and who are working at lower ranks and due to ignorance their morals are down, which might affect productivity. If take care of your employees, they will sure take care of the clients.

If one region is rich in minerals, then other could be rich in oil or gas or foods or even manpower etc. Global System must be balanced by sharing all the resources in a balanced way, otherwise more and more disasters may come in the shape of poverty, and innocent people may not have any choice than come to street violently, since they cannot see their infants crying for milk, food and other basic needs.

Avoid loans, avoid waste and stop greediness as much as possible keeping in mind how much is too much to help stabilize the Global World, (Ref: Al_Quraan_009.060, 025.063-067).

It is time now to open our eyes and correct ourselves to serve humanity in the light of Quraan, since the Quraan gives the true guidance to fix the system to save Humanity in a balanced way, (Al_Quraan_002:002).

Allah Never Destroys any Good Nation, (Ref: Al_Quraan_011.116-117). Do not turn out people from their homes, (Ref: Al_Quraan_002:084). Saving a Life is like Saving the Whole World, (Ref. Al_Quraan_005.032). There is NO Compulsion in Religion, (Ref: Al_Quraan_002:256)

We all need to help as much as we can to build the Global World for the better future for our kids, only then we can hope that our kids will have the fruits of it and will pray for us. Educate yourself including your kids and keep your knowledge up to date according to time, as much as possible without wasting a minute. If you have good knowledge, you must teach others or share with others for free if possible, (Ref: Al_Quraan_096.001-005).

Think of old time ten organizations in which one thousands of employees working in each organization. Then came industrialization and heavy machinery and robots took places of human. Naturally many of the workers got Layoff and are off the jobs. Initially these Businesses thought that they will save lots of money by Laying off those workers, but did not realize that those were also customers of other industries as well. BUT due to Layoff, they don't have enough money now to buy, so in reality those businesses lost their customers as well by Laying off their employees. This is just a simple example to start understanding the consequences which could be much better if we think about saving humanity. Yes, industrialization and robotics are very good but we need to start thinking **DIFFERENTLY** to save humanity to build Whole New World. There could be many projects we can collectively initiate at Global Level to provide those laid off workers. **Remember: Layoff means more Poverty and more Crime, unless Employer must have been provided to lay off people guaranteed alternate options for their survivals. Services cut down at Hospitals means danger to our health, Services cut down at Fire Station or Police means our life/security is in more danger etc.**

People do not have any plant/tree which grows money, since Money does not grow in any plant/tree.

Money is not a concern for the Global Recovery, but it is the Global System, which needs to be fixed.

It is not the Wealth (Gold or Silver) or Power which could save the Global World from Global Recession. Allah seized Qaroon, Pharaoh, and Hamaan and many more, for their crime against humanity and nothing could save them including their wealth, power or people etc. (Ref: Al_Quraan_029:039). World didn't end there, but even without their wealth and power, it had re-developed.

I invite you all to join this Noble Mission and invite others to join it to save humanity without any discrimination of religion, race, color, gender, language or nationality etc.

A single machine may replace thousands of humans but not a single human can ever replace a single machine.

Thinking locally while living in Global World will not save our Global World.

Repeatedly Relying on the Same Corrupt or Incompetent Person will NOT Change the Fortune of a Nation or Global World. Do not even think to try to re-appoint those who were failed to protect the corruptions in the land.
