Global Spider Webs - Global Traps

By Irshad Mahmood – Director, Global Right Path

There are many kinds of Global Spider Webs & Global Traps around the world along with confused Taxation Rules which are hurting general public, who are in need to be aware of all kinds of Global Scams, Traps etc.

E-Mail Be Aware:

Be Aware of Fake Delivery Notifications, targeted messages and attachments. Do not click on embedded links & attachments from unknown sources that you are not expecting.

Buyer Be Aware:

Be Aware of Misleading Ads, since online ads may have hidden costs even if it sounds too good to be true, it probably is a trap. Be careful when clicking ads. Do not make spur of the moment purchases.

Mobile Apps Be Aware:

Be Aware of Mobile Apps, SMS texts, add-ons and sharing your information. Install apps from google play and the apple store - these organizations do their best to ensure apps are legitimate. Before installing any app take the time to review the information that you are required to share.

Digital E-Greeting Cards and E-Vouchers Be Aware:

Be Aware of Digital E-Greeting Cards and E-Vouchers. Validate an e-mail address prior to opening an e-greeting card. You only place your mouse over embedded link(s) **without clicking**, and check the URL in the status bar, to ensure that the URL displayed is the same source as the sender or you are expecting it.

Vacation/Travel Be Aware:

Be Aware of Vacation, Travel bargains and Budget vacations. Make sure that you pay attention to all of the "**small print**" to protect yourself from scammers. Do your research carefully and check with online rating sites to get feedback from others who have visited the location you want to vacation to.

Fraud Calls from Banks Be Aware:

Be Aware of Fraud Calls from Banks and protect your CVV number. Don't get tricked by fraudulent calls. Never give out your 3-digit CVV on the back of your card to anyone unless you initiated the call as part of a purchase.

ATM Machine Skimming Be Aware:

Be Aware of ATM Skimming, Fake Overlay and Cameras. Always look closely at the ATM to see if something is out of place. Always cover your hand when keying in your pin so that it is not visible. Instead of using the standard 4-digit pin, most banks will allow up to 8 or even 12 digits... using a longer pin makes it more difficult for criminals to manufacture a replacement card. Always check your bank balance to reconcile the transactions. If something is wrong, immediately contact your bank!

Year in Review Be Aware:

Be Aware of Year in Review and be careful when internet browsing, Emails with links to malicious software. Ensure site is legitimate before clicking on links. Don't click on attachments or links prior to validating sender.

Travel with Mobile Devices Be Aware:

Be Aware of Travel with Mobile Devices. Be aware of free wireless connections. Beware of international laws and policies. Protect your mobile devices with a strong pin or password. Backup your data, emails, contacts and pictures when possible.

USB Flash Drives Be Aware:

Be Aware of USB Flash Drives. Be aware of USB exploits such as "BADUSB". Be aware of USB drive scams. Prevent connecting untrustworthy USB drives to your computers. Determine USB drive reliability and integrity before purchasing.

Charities Be Aware:

Be Aware of Bogus Charities, when receiving a donation request and not sure that the charity is legitimate. Check to ensure the charity is legitimate, which is very hard for general public. Don't rush to make a donation online or over the phone. Don't click on links that you are not sure about.

Taxation Be Aware:

Every country has their own taxation rules for running their Governments. We must remember these rules are made by human and there could be a few errors and confusions which the general public doesn't understand clearly. There might be a few issues which even qualified accountants are unclear about possibly due to lack of experience. **If hundreds of thousands of civilians are trapped into any taxation rule, then it is the Taxation Department's mistake** and they need to **FIX THEIR RULES FOR FUTURE, by taking lessons from the past**. If they start going against the interest and wellbeing of the general public, then there is a chance that the public will get tensions/anxieties which may trigger medical conditions such as, High Blood Pressure, Cholesterol, Diabetic problems, Thyroid issues, etc. and in some extreme cases even deaths as well. **It will surely increase medical costs on general public as well as governments**. In regards to charitable donation, keep in mind if someone gets a **\$10,000** refund, he/she might have to donate around **\$5,000** to get that, so his/her take-home refund is only **\$5,000** not **\$10,000**. They fall into this trap due to the Taxation Department's wrong and confusing rules, since they haven't mentioned anywhere in that specific rule that the department will start investigating these types of charitable donations. **One of the main reasons why Government don't fix it for future, could be lawmakers which includes top level political parties/leaders might also getting benefits from its loopholes and are unjustly protected, while others fall into this trap and might get heart attack even in extreme cases death etc.**, and it needs full investigations.

There might be many countries that have taxation issues which are not clear. Below are just few examples:

CRA - Giving to Registered Charities 101: (It is a Trap and CRA will investigate you)

Please share it with others for general public awareness to protect you, your loved ones and your communities from this hidden trap. It is like spider web and anyone may be trapped very easily and become bankrupt. If you have any knowledge about any other issues please share with others as well, before it is too late and they become bankrupt.

Taxation Departments must FIX THEIR RULES FOR FUTURE, by taking lessons from past and working for the betterment of the general public.
