

In the Name of Allah, Most Gracious, Most Merciful

Global Students Need Debt Free Education

By Irshad Mahmood – Director, Global Right Path

At present time many of Global Students are on huge debts, instead of Debt Free like a new born baby, at the beginning of their practical life after completing their education. All governments need to re-analyze their system to make their student Debt Free as much as possible. All Professional Institutions (Schools, Colleges and Universities) must have one Global Standards without any discrimination so that people will be worry free about their kids from getting a low standard education and will not plan to move to new locations which will sure help save their big huge burden otherwise it will be clear discrimination against students of different regions. All Seats must be balanced (10% International, 10% National, 10% Provincial and rest 70% for local/regional students). In case of less applications from International, National or Provincial all available seats must be assigned to Local Students.

People of the World need to contact their politicians (Member of parliaments etc.), to whom they vote for the change to reduce burden from students. Media must play an active role on projecting their concerns.

To stabilize Global World, it urgently needs right **Education**, which may not be without proper Organizing Skills. Presently cost of education is getting higher and higher and is going beyond the reach of students. Global Government needs to take lessons from the Quraan, the Book of Guidance to take out burden from the shoulder of students so that they can concentrate more on education. Only waiving off tuition fee may not help completely but living expenses must be available to the needy as well. **Sweden** still in 2010 has totally **FREE** Educations for their citizens and also has scholarships for those students who are regularly passing their exams on time to cover their living expenses. So Swedish are more dedicated to their children education and they have many good inventions/contributions to the Global World as well, e.g. Ericson (Mobile), Saab (Vehicle), Volvo (Vehicle), Celsius 100-point thermometer, First Mechanical Calculator, Bicycle with brakes, Tetra Pack, Battery Powered Pace Maker, Artificial Intelligence, Robotics, Mecanum wheel capable to move in any direction and many more.

To take Global World in a right direction to help humanity, we need to be well organized, dedicated and must have clear direction in a **Balanced Way** and **Debt FREE** (Ref: AI_Quraan_009.060, 025.063-067), which may not be achieved without taking guidance from the Quraan (the Book of Guidance for the mankind).

Difference in **Income** of **Lawyers, Doctors** and **Other Professionals** must be balanced, so that student can choose any discipline of their own choice if available. **Deep study is needed** for Global Government to have clear direction to let the students know where there are more requirements. All profession disciplines must have modern Hands-on-Training in addition to regular courses, to train all students to enter the workforce on time.

Global Government must have clear direction to help students to enter the workforce. No high professional students should be leftover at age 25 without any job, other low tech students should be able to enter the workforce at much earlier age. It must establish a system where seniors must be able to train new students.

Global System must be fixed in a balanced way to overcome Global Instability in the light of the Quraan. It must follow the basic rule to TAX the GREEDY not the NEEDY and TAX on SAVING NOT SPENDING without wasting or over spending. It must ensure that people are not thrown out from their home. Education must be provided to all with internationally recognized high standards for free, which must have good parent-teacher relation. Burdon of debt should not be put on students for their studies including professional studies, so that they can concentrate more on study to acquire more knowledge to help the humanity than worrying on how to pay debt. Earnings must be balanced for each skillsets people may have, so that they don't rush to only few skillsets. Special encouragements must be given to those who sincerely and devotedly work hard to help the Global System in a balanced way. Many times top management neglect those who are the foundations of their team and who are working at lower ranks and due to ignorance their morals are down, which might affect productivity. A few from each group must learn Deen to teach others in their society. (Ref: AI_Quraan_009:122)

Repeatedly Relying on the Same Corrupt or Incompetent Person will NOT Change the Fortune of a Nation. Do not think to try to re-appoint those who were failed to protect the corruptions in the land.
