

In the Name of Allah, Most Gracious, Most Merciful

Heavenly Earth

By Irshad Mahmood – Director, Global Right Path

Everybody dreams to have their Ideal Sweet Home and it is totally upon them how they want to decorate it, if one luckily has it and have enough budgets. Even people living in tents do decorate their tents under their budget. BUT we don't live in our home 24/7, day and night. We have certain needs and for that we must have to go out on the street and travel in the land including travelling abroad for the search of better education as well as finding honorable works etc. It is also our duty to build and decorate our streets where ever we go, and educational centers and workplaces, etc., BUT these are collective efforts and we all need to work together to build and decorate our community, society, and country to fulfill our dream to build our beautiful heavenly earth.

Dream to build our beautiful heavenly earth can never become true unless we all unite together regardless of any discrimination of religion, race, caste, language, disability, gender, age, etc. It is absolutely possible to build our earth as Heavenly Earth, if we truly follow the commandments of Allah from the Quraan (True Book of Guidance), with 100% guaranteed. **The Quraan has given many beautiful examples including of Heavens.** We need to extract and implement those laws regardless of any discrimination and leave the rest of the matters with Allah.

Presently in the beginning of twenty-first century, Global World is facing Great instability causing many countries and regions going through a Great Turbulence of Global Uncertainty. People are suffering badly all around the world including Thailand, Greece, many of the African countries and even in the United States of America, with no exception to Muslim Countries. Perhaps till now it could be like tip of an iceberg what we have seen yet and rest could be about to come sooner if not later, since the world didn't took the true guidance from the Quraan to stabilize the Global World to save the humanity and build our Heavenly Earth.

If one region is rich in minerals, then other could be rich in oil or gas or foods or even manpower etc. Global Government must come forward to balance the Global World by sharing all the resources in a balanced way to build our Heavenly Earth, otherwise more and more disasters may come in the shape of poverty, and innocent people may not have any choice than come to street violently, since they cannot see their infants crying for milk, food and other basic needs.

It is not the Wealth (Gold or Silver) or Power which could save the Global World. Allah seized Qaroon, Pharaoh, and Hamaan and many more, for their crime against humanity and nothing could save them including their wealth, power or people etc. (Ref: Al_Quraan_029:039). World didn't end there, but it had re-developed, even without their wealth and power. Those who never faced real poverty for years may never understand its solution, unless they have really took the Guidance from the Quraan. **It is 100% guaranteed to save the world globally to build our Heavenly Earth, if we truly apply the guidance from the Quraan.**

It is time now to open our eyes and correct ourselves to serve the humanity in the light of Quraan, since the Quraan gives the true guidance to fix the system to save the Humanity in a balanced way (Al_Quraan_002:002).

Allah Never Destroys any Good Nation (Ref: Al_Quraan_011.116-117). Do not turn out people from their homes (Ref: Al_Quraan_002:084). Saving a Life is like Saving the Whole World. (Ref: Al_Quraan_005.032). There is NO Compulsion in Religion. (Ref: Al_Quraan_002:256)

Global Government needs to **note down all issues big or small** and needs to analyze it in detail on case by case method and first start with all those issues which had triggered the Great Turbulence of Global Instability.

Few of major issues which had caused the Global Instability are **interest** based system, **alcohol, gambling** and **supply and demand** system, on which special deep study is needed (Ref: Al_Quraan_002.278-279, 002.219).

Avoid loans, avoid waste and stop greediness as much as possible keeping in mind how much is too much to help stabilized the our Heavenly Earth (Ref: Al_Quraan_009.060, 025.063-067).

We all need to help as much as we can to build our Heavenly Earth for the better future for our kids, only then we can hope that our kids will have the fruits of it and will pray for us. **Educate yourself including your kids and keep your knowledge up to date according to time, as much as possible without wasting a minute.** If

you have good knowledge then teach others or share with others for free if possible (Ref: Al_Quraan_096.001-005).

Global Government must be ready to abandon any laws which might hurt economy of general public, in such a way which helps to move forward by forgiving and forgetting the past BUT taking lessons from the past. It must follow the basic rule to TAX the GREEDY not the NEEDED. **Education must be provided to all with internationally recognized good high standards for free, which must have good parent-teacher relation.**

Also to stabilize our Heavenly Earth, it urgently needs right **Education**, which may not be without proper Organizing Skills. Presently cost of education is getting higher and higher and is going beyond the reach of students. Global Government needs to take lessons from the Quraan, the Book of Guidance to take out burden from the shoulder of students so that they can concentrate more on education. Only waiving off tuition fee may not help completely but living expenses must be available to the needy as well. **Sweden** still in 2010 has totally **FREE** Educations for their citizens and also has scholarships for those students who are regularly passing their exams on time to cover their living expenses. So Swedish are more dedicated to their education and they have many good inventions/contributions to our Heavenly Earth as well, e.g. Ericson (Mobile), Saab (Vehicle), Volvo (Vehicle), Celsius 100-point thermometer, First Mechanical Calculator, Bicycle with brakes, Tetra Pack, Battery Powered Pace Maker, Artificial Intelligence, Robotics, Mecanum wheel capable to move in any direction and many more.

One of the Peak of Technology can be understand from the story of Prophet Sulayman/Solomon (Peace-Be-Upon-Him) in the Quraan, where a person was capable to bring the throne before the twinkling of an eye (Ref: Al_Quraan_027.040).

To take our Heavenly Earth in a right direction to help the humanity, we need to be well organized, dedicated and must have clear direction in a **Balanced Way** and **Debt FREE** (Ref: Al_Quraan_009.060, 025.063-067), which may not be achieved without taking guidance from the Quraan (the Book of Guidance for the mankind).

Difference in **Income** of **Lawyers, Doctors, Other Professionals** and **Labors (Other Workers)** must be balanced, so that student can choose any discipline of their own choice if available. **Deep study is needed** for the Global Government to have clear direction to let the students know where there are more requirements. All profession disciplines must have modern Hands-on-Training in addition to regular courses, to train all students to enter the workforce on time.

Global Government must have clear direction to help students to enter the workforce. No high professional students should be leftover at age 25 without any job, other low tech students should be able to enter the workforce at much earlier age. It must establish a system where seniors must be able to train new students.

World has enough to feed but not greed. **Global Government** must balance the production cost globally in relation to Gold (currency). You cannot buy the Whole World from Gold, since Gold is a little tiny part of the Whole World.

Remember:

Thinking locally while living in Global World will not make our Earth as Heavenly Earth

Quraan has Clear Direction to build our Heavenly Earth, and **100%** Guaranteed.

WORLD HAS ENOUGH TO FEED BUT NOT GREED

Repeatedly Relying on the Same Corrupt or Incompetent Person will NOT Change the Fortune of a Nation. Do not even think to re-appoint those who were failed to protect the corruptions in the land.

Read Al-Quraan, the Miracle of Miracles and free from contradictions and errors
